

## QUALITY POLICY STATEMENT

Trammel Tooling is committed to providing its' clients with products and services specifically designed to suit their needs by identifying those needs and expectations and meeting or exceeding them every time. We believe that the key to achieving this is through our Business Management System that is based on the International Quality Standard ISO 9001:2000.

The Quality Policy covers the design, manufacture and servicing of all our products including:

- γ Plastic Injection Moulds
- γ Press Tools
- γ Jigs and Fixtures
- γ Special Purpose Machinery
- γ Production Components

This policy shall be implemented through clearly defined objectives which are to:

- γ Provide the means for the development / improvement of the level of service offered by Trammel Tooling.
- γ Provide proof of the implementation of the policies and procedures, through internal auditing and management review meetings.
- γ Provide a reference for policies and procedures.

It is the responsibility of all employees to ensure that systems and procedures are followed and that through teamwork, quality remains a priority at all stages of processing from receipt of an enquiry through to the completion of an order.

We will continually monitor / review our performance and through liaison will assess the needs of our customers. When necessary any agreed changes to company standards will be implemented in line with the requirements of the Quality System.
